

Dear EMSOS members,

Many thanks to those of you who already have submitted manuscripts to the first EMSOS proceedings in *Clinical Orthopaedics and Related Research*, our Society's official journal. We have already received more than 20 manuscripts.

Because many more have contacted us to let us know that they have papers that are almost ready but not quite, we've extended the manuscript submission deadline by one month—to August 1st.

Publishing your work in *CORR* as part of these selected proceedings has many advantages both for you and for EMSOS in terms of extending the reach that you (and our Society) can achieve. For example, about 45,000 people see *CORR*'s electronic table of contents each month, and every member of the American Academy of Orthopaedic Surgeons has full-text access, as do thousands of members of other societies around the world.

We seek manuscript submissions on this topic of any of the following types:

- (1) Original clinical research (level IV or above),
- (2) Original laboratory research, or
- (3) Systematic review or meta-analysis (the latter must include only randomized trials).

Selective (book-chapter-style) review articles cannot be considered. As always, all papers will be peer reviewed, and the standard to publish a paper in these proceedings is the same as applies to unsolicited research in *CORR*[®].

Please consider using one of *CORR*'s available online article-building tools to write and format your article; see screenshot just below for where to find the tools (red arrows) and their instructions (blue arrows) on www.clinorthop.org.

New Submission Deadline: August 1, 2023

Submission Process:

- Login at <https://www.editorialmanager.com/corr/>,
- Select “Submit new manuscript”
- Select “Solicited Symposium/Proceedings” as the article type, and
- Select “Selected Proceedings from 2023 EMSOS Annual Meeting (Pietro Ruggieri, Guest Editor)” from the drop-down menu.

Screenshots depicting these steps are below my signature.

It is very important that you submit the work as a Symposium/Proceedings paper under the correct title (Selected Proceedings from the 35th Annual Meeting of the European Musculo-Skeletal Oncology Society, and *not as “clinical research” or “basic research”* in order for your work to be included.

The EMSOS board are very excited about this project, and we know you share our enthusiasm. The editor-in-chief of *CORR*[®], Seth Leopold, is likewise enthusiastic and supportive. The amount and diversity of the material we covered at our meeting should make this a fascinating and important selected proceedings in *CORR*[®].

Please direct any questions about the proceedings or publication of your work in *CORR*[®] to Dr. Leopold (SLeopold@clinorthop.org).

Very respectfully,

Pietro Ruggieri, MD
Liaison to *CORR* from EMSOS
