

COURSE

# Bone Tumours 2024

## Boerhaave Nascholing

WEDNESDAY 7 – FRIDAY 9 FEBRUARY 2024

**ACCREDITATION** will be applied  
for at the professional societies

### TARGET GROUPS

The course is meant for (trainee) pathologists, radiologists, orthopaedic surgeons, clinical oncologists and paediatricians.

### REGISTRATION FEE

€ 795,- (professionals) / € 475,- (trainees)

### VENUE

Leiden University Medical Center,  
Albinusdreef 2, 2333 ZA Leiden

- *Multidisciplinary approach to diagnose bone tumours*
- *Lectures and practical training*
- *Discussion in multidisciplinary setting*

### EDUCATIONAL OBJECTIVES

- To practice with and experience the benefit of a multidisciplinary approach to bone lesions
- To increase knowledge of the diagnostic criteria of a variety of primary bone tumours and tumour-like lesions.
- To understand the genetic background and the role of molecular diagnostics in the diagnosis of bone tumours.

## COURSE

# Bone Tumours 2024 Boerhaave Nascholing

WEDNESDAY 7 – FRIDAY 9 FEBRUARY 2024

This course aims at the practical multidisciplinary approach to diagnose tumours of bones and joints, which can also be encountered outside specialized centers.

The course deals with a systematic approach of groups of frequently occurring tumours and tumour-like lesions.

The emphasis is multidisciplinary and the focus on the interaction between pathologists,

radiologists and orthopaedic surgeons, which is crucial to come to an adequate diagnosis.

Lectures are admixed with practical training in the form of computerized microscopy training, and discussion of relevant molecular biological techniques, in a multidisciplinary setting.

## ORGANIZING COMMITTEE

prof.dr.J.V.M.G. Bovée and Dr. C.S.P. van Rijswijk

## PROGRAMME

### DAY 1 Wednesday 7 February 2024, 11:30-17:30

- Radiologic approach of skeletal tumours
- Preparation of biopsy and resected specimens
- Establishing a diagnosis: the surgical point of view
- Differential diagnosis of bone forming tumours
- Hereditary osteogenic tumours
- Practical session bone forming tumours (radiology and histology)

### DAY 2 Thursday 8 February 2024, 09:00-17:15

- Differential diagnosis of giant cell containing tumours
- Practical session giant cell containing tumours (radiology and histology)

- Differential diagnosis of cartilage forming tumours including syndromes
- Practical session cartilage forming tumours (radiology and histology)
- Treatment of bone tumours; the surgical point of view

### DAY 3 Friday 9 February 2024, 09:00-12:30

- Differential diagnosis of small blue round cell tumours
- Contribution of molecular diagnostics
- Differential diagnosis of inflammation and inflammation-like conditions
- Practical session (radiology and histology)
