COURSE
Bone Tumours 2024
Boerhaave Nascholing
WEDNESDAY 7 – FRIDAY 9 FEBRUARY 2024

TARGET GROUPS
The course is meant for (trainee) pathologists, radiologists, orthopaedic surgeons, clinical oncologists and paediatricians.

REGISTRATION FEE
€ 795,- (professionals) / € 475,- (trainees)

VENUE
Leiden University Medical Center,
Albinusdreef 2, 2333 ZA Leiden

ACCREDITATION will be applied for at the professional societies

• Multidisciplinary approach to diagnose bone tumours
• Lectures and practical training
• Discussion in multidisciplinary setting

EDUCATIONAL OBJECTIVES
• To practice with and experience the benefit of a multidisciplinary approach to bone lesions
• To increase knowledge of the diagnostic criteria of a variety of primary bone tumours and tumour-like lesions.
• To understand the genetic background and the role of molecular diagnostics in the diagnosis of bone tumours.

For more information and registration:
This course aims at the practical multidisciplinary approach to diagnose tumours of bones and joints, which can also be encountered outside specialized centers. The course deals with a systematic approach of groups of frequently occurring tumours and tumour-like lesions. The emphasis is multidisciplinary and the focus on the interaction between pathologists, radiologists and orthopaedic surgeons, which is crucial to come to an adequate diagnosis. Lectures are admixed with practical training in the form of computerized microscopy training, and discussion of relevant molecular biological techniques, in a multidisciplinary setting.

ORGANIZING COMMITTEE
prof.dr. J.V.M.G. Bovée and Dr. C.S.P. van Rijswijk

PROGRAMME

DAY 1 Wednesday 7 February 2024, 11:30-17:30
- Differential diagnosis of cartilage forming tumours including syndromes
- Practical session cartilage forming tumours (radiology and histology)
- Treatment of bone tumours; the surgical point of view

DAY 2 Thursday 8 February 2024, 09:00-17:15
- Differential diagnosis of giant cell containing tumours
- Practical session giant cell containing tumours (radiology and histology)

DAY 3 Friday 9 February 2024, 09:00-12:30
- Differential diagnosis of small blue round cell tumours
- Contribution of molecular diagnostics
- Differential diagnosis of inflammation and inflammation-like conditions
- Practical session (radiology and histology)
